HUMANITIES FACULTY

Thank you for your interest in the post within the Humanities Faculty.

We are a relatively new Faculty in the School and have seen the development of many exciting new initiatives in recent times.

The Faculty consists of five full time members and it is a great strength that these staff are a mixture of both experienced teachers and those new to the profession. The leadership team consists of the Head of Faculty and Subject Leaders for Geography, History and RE.

The Head of Faculty and Subject Leaders have been in post since September 2006 when the new faculty structure within the school was established. All classrooms have access to either projectors or interactive whiteboards. In addition there has been significant financial investment which has enabled us to purchase a variety of new resources to enable us to motivate and engage our students. We have a dedicated ICT suite for the Faculty

In Humanities our Key Stage 3 results have shown a pleasing improvement and we achieved a good A* to C pass rate at GCSE level for our current Year 11 students.

There is a very strong sense of team in the Faculty and we are united in wanting our students to develop a growing sense of understanding as to their place within the local and global community via the delivery of an all inclusive and inspiring humanities curriculum.

We are seeking a dedicated professional to join our team in its next phase of development.
